UnityCrashHandler64.exe	2023/10/10 17:36
UnityPlayer.dll	2023/10/10 17:36

Please unzip the installation package after downloading it. And click the 'Learningverse.exe' file.

Name

Enter your name

Password

Enter your username and password.

Login Learningverse.

Learningverse

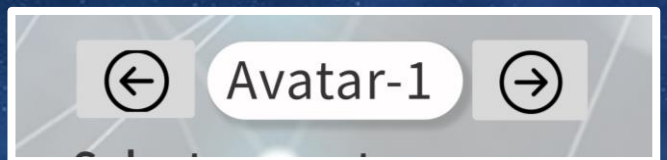

2

Select/customize avatar styles

Choose a pre-set avatar.

Switch among pre-set avatars by the left and right arrows under the avatar preview window.

Choose your body type

Masculine

Feminine

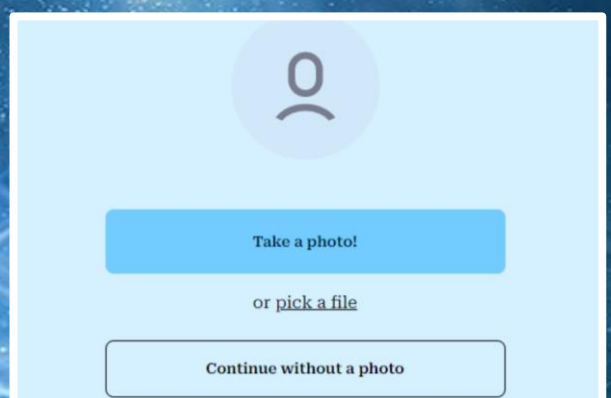

Don't specify

Already have an avatar?

Click 'create' button to create a full-body avatar.
Select a body type.

1. Click 'Continue without a photo' and pick one default avatar → design your avatar → click 'Next'..

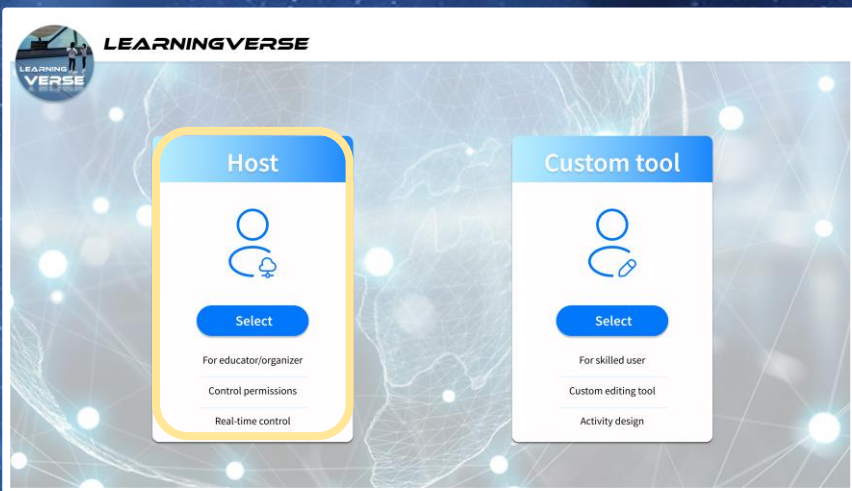

2. Take/upload your photo: Click 'upload' or pick a file → click 'Next'.

Learningverse

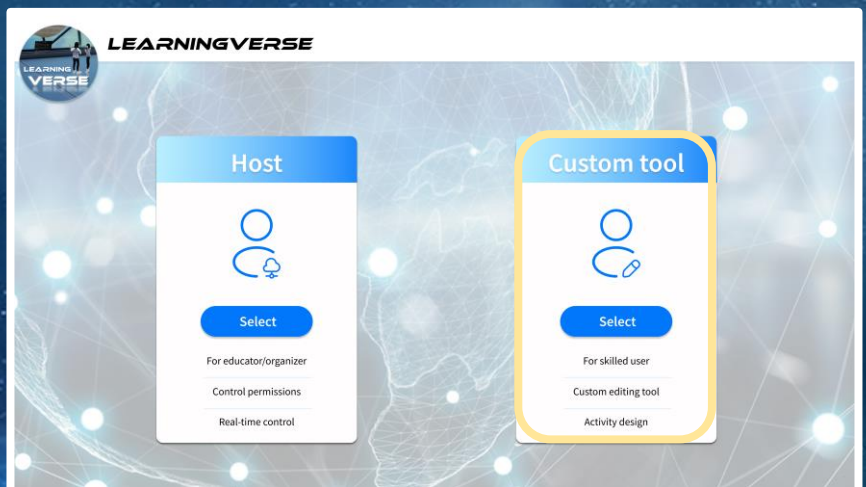

3

Select status & spaces

Host status: Hosts can create lobbies and select edited spaces to set up learning activities to control groups and the activity process.

Custom tool status: Users can create spaces and customize settings (e.g., upload images and models, set model properties, design activity content).

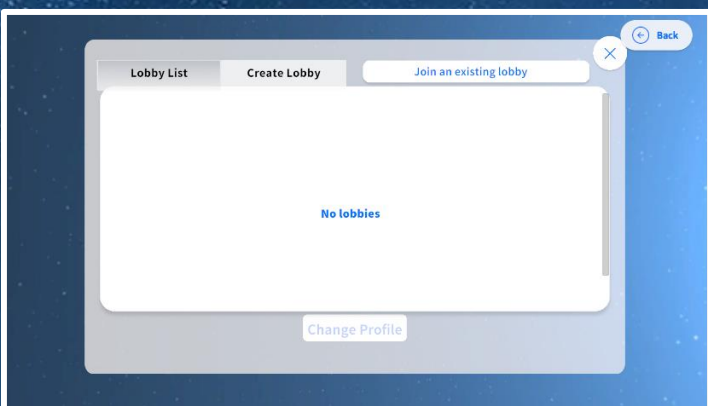

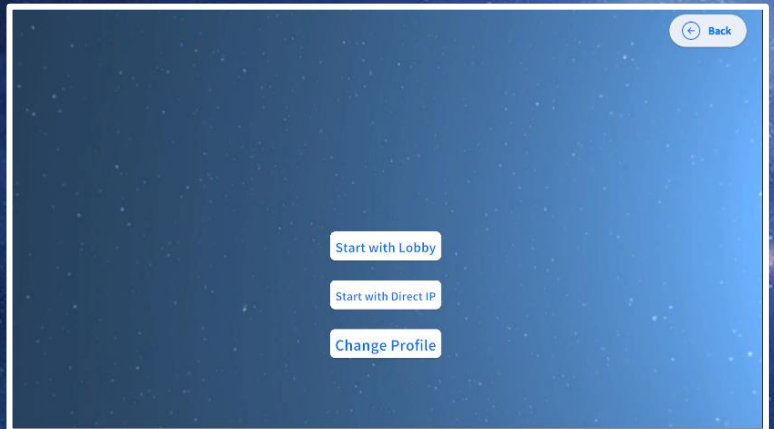

Learningverse

4

Enter spaces in 'Host' status

Click 'Start with lobby'

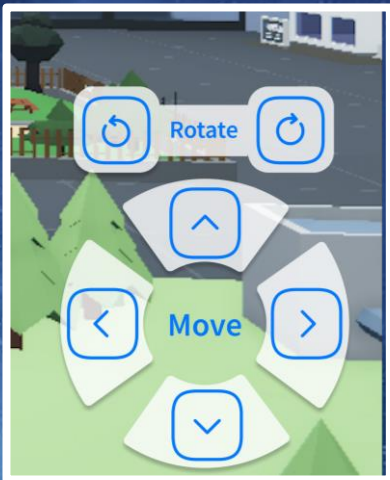

If you need to join an exist lobby, select a lobby to enter.

If no existing lobby, please create a lobby.

Learningverse

5

Avatar and screen controls(1)

Click 'Move panel' to move forward, backward, and side to side. Or press 'WASD'

Click 'Rotate' panel to change the perspective. Or press 'Q&E'

Click the 'Mirror' button to open the mirror mode.

Mirror mode:

In this mode, your avatar will mirror your movements by the webcam connected to your device. Make sure your UPPER BODY could be recorded by the webcam.

Learningverse

6

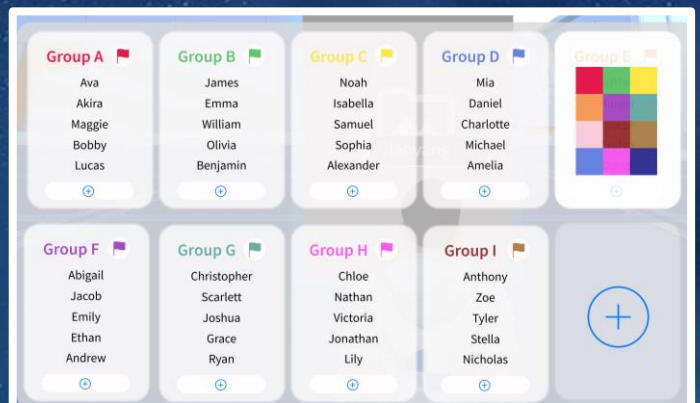

Avatar and screen controls (2)

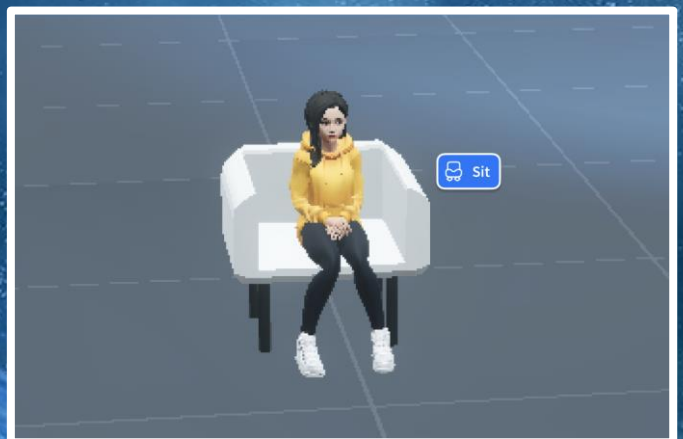

Click the 'Group' button to open the group mode.
Click the 'Process' button to view and control the opening and closing of the gates.

Teachers can choose individual mode or group mode.

For groups, the number, name, color, and logo of the group must be set.

Click the pop-up button to interact with objects (e.g., click 'sit' button to sit down on the chair).

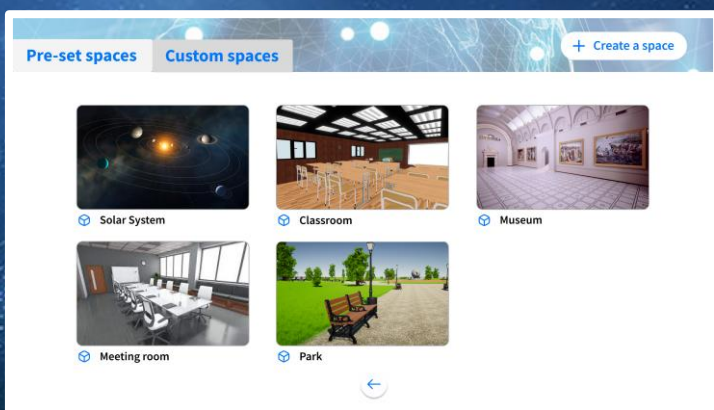

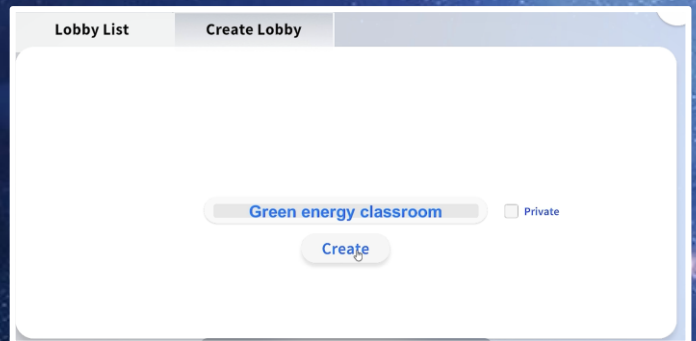

Learningverse

Select spaces in 'Host' status

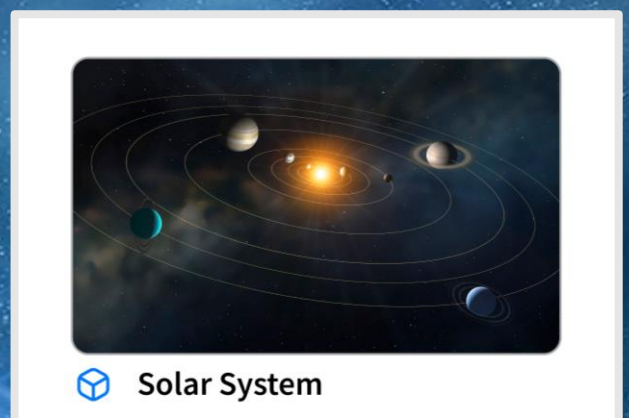

Input a lobby name and create a lobby.

Select an existing lobby to entry the space.

If you create a new lobby, please select “pre-set spaces” or “custom space” to load a new space.

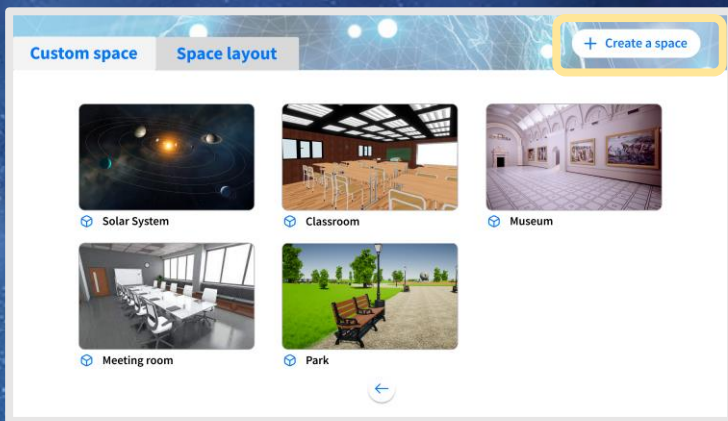

Click a space to entry (e.g., Solar System).

Learningverse

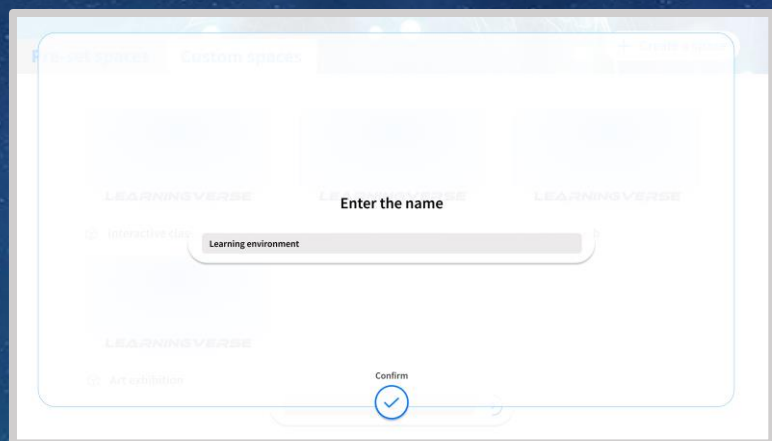

8

Select & create spaces in 'Custom tool' status

Click “Create a space” button.

Enter the name of the newly created space.

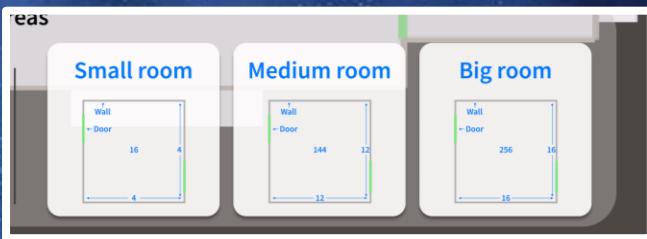

Click the created space.

Learningverse

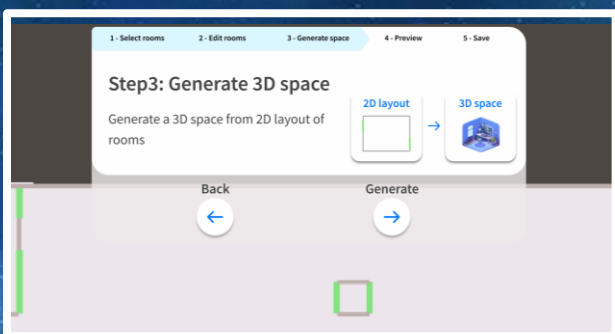

9

Create new learning scenarios (1) - Rooms

Choose the room size.

Drag and assemble them in bird's view. Grey areas indicate inaccessible walls, and green areas indicate accessible doors.

Generate and create a space.

Learningverse

10

Create new learning scenarios (2) - Add objects

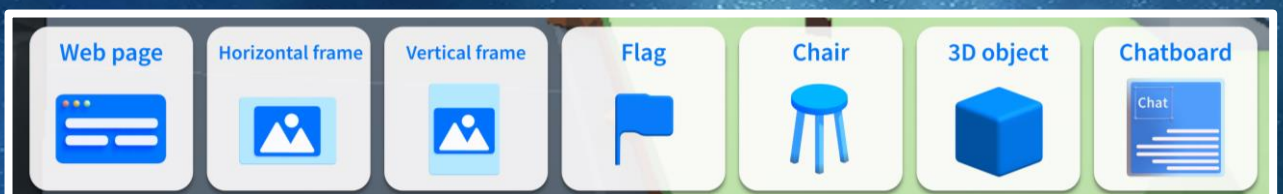

Click the buttons to create a new object.

Click the object to set the properties, and click again to exit editing.

Pre-set objects:

Web page, frame, flag, chair, 3D objects, and chatboard.

Custom objects (format: .glb):

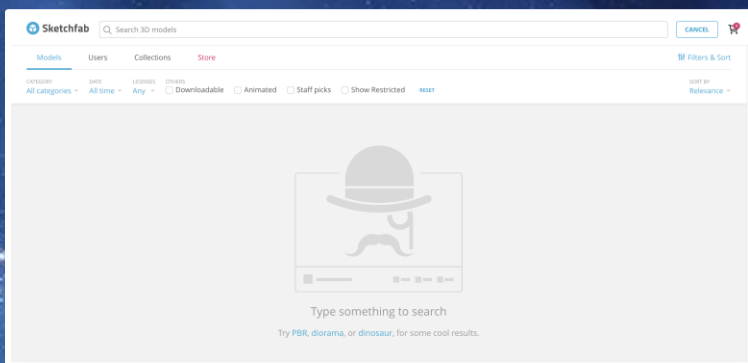

You can use 'Sketchfab' to download open-source models.

Link: <https://sketchfab.com/3d-models>

Learningverse

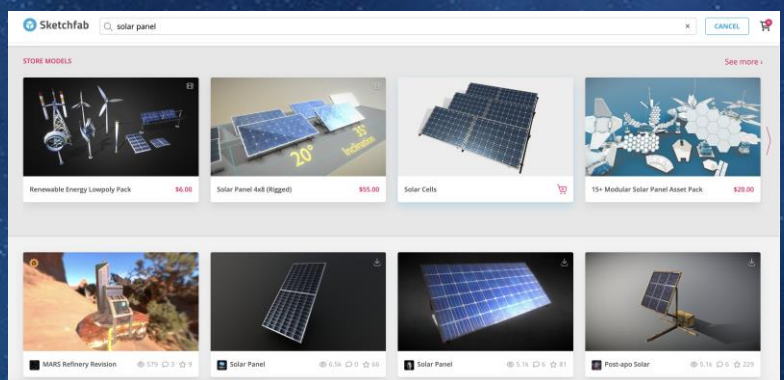

11

Create new learning scenarios (3) - Download objects

Please enter the Sketchfab:
<https://sketchfab.com/3d-models>

Search a 3D model (e.g., solar panel).

Solar Panel

3D Model

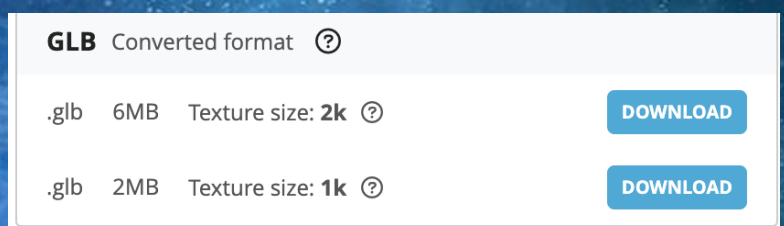

Harri Snellman

FOLLOW

[Download 3D Model](#) [+ Add To](#) [</> Embed](#) [➔ Share](#)

Download the 3D model.

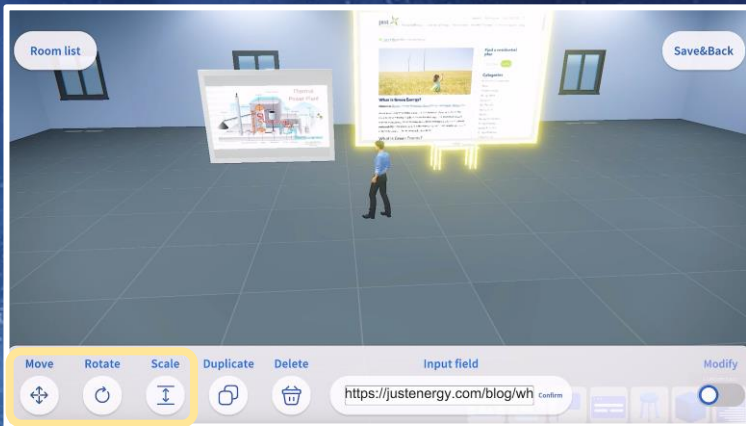

Please select the '.glb' format to download.

Learningverse

12

Create new learning scenarios (4) - Edit objects

Move: Move the position of an object.

Rotate: Rotate an object or set an angle.

Scale: Resize objects.
